

Beekeeping in the Pacific Northwest 2013

Join us for our Beekeeping Course Saturday June 29th, 2012 8:30am-4:30pm here at our West Sound Beekeeping Association located at Stedman Bee Supplies. This course is for those beekeepers that have already taken the Basic course or for have kept bees for a season and are ready to learn more about the fascinating world of raising bee in the Pacific Northwest.

Some beekeepers have kept bees for years, but because they keep repeating the same mistakes they are not gaining years of beekeeping experience. Instead they are stuck in being a first year beekeeper year after year. Take the next step, and leap into becoming a better beekeeper! We'll take a more in depth look at swarm prevention, splits, overwintering hives, pests & disease diagnosis, treatment and prevention, increase honey yields and tricks of the trade.

There will be hands on demonstrations in the afternoon so all beekeepers must bring a hat and veil or suit. You will have the opportunity to participate in activities such as making splits, sugar rolls, sugar dusting and mite counts, hygienic testing, etc.

Beekeeping in the Pacific Northwest 2013

Saturday June 29, 2013
